

TANISHA AGARWAL

AI Developer | Python | Generative AI | Machine Learning

agarwalt693@gmail.com | LinkedIn | GitHub | Pune, India | Portfolio

PROFILE

MCA graduate specializing in applied machine learning and generative AI. Built a GenAI-powered resume analyzer, an ML pipeline for student performance prediction, and AI-driven recommendations inside a full-stack travel platform. Comfortable across the ML lifecycle — data cleaning, model training and comparison, and deploying predictions through Flask interfaces. Looking to apply AI/ML skills to real-world products.

EXPERIENCE

Web Intern | Prop Innovations and Solutions, Pune

Aug 2025 – Mar 2026

- Translated performance metrics and structured analysis into insights that informed product and UX decisions.
- Conducted usability testing and competitor analysis, converting findings into actionable improvement recommendations.
- Identified and documented software defects, supporting release quality.

PROJECTS

Resume Analyzer — Python · Flask · Generative AI

- Built an AI-powered Flask tool using generative AI to parse resumes and return structured feedback on content and keyword gaps.
- Designed prompt logic to extract and evaluate resume content against role-relevant keywords.

Student Performance Predictor — Python · Scikit-learn · SVM · Flask

- Built an end-to-end ML pipeline: data cleaning and feature prep with Pandas/NumPy, SVM training, and comparison across multiple algorithms.
- Visualized model results with Matplotlib/Seaborn and deployed predictions through a Flask web interface.

TripTactix — Smart Travel Planning Platform — Python · Flask · Jinja2 · AI

- Integrated AI-assisted recommendation logic to personalize trip suggestions based on user budget and preferences.
- Built the supporting Flask backend, dynamic rendering, and modular routing for the recommendation engine.

AgroConnect — Farmer-Buyer Marketplace — Python · Flask · MySQL

- Developed a Flask + MySQL marketplace platform, applying structured data design to support farmer-buyer matching.

TECHNICAL SKILLS

AI & ML: Generative AI, Prompt Engineering, Scikit-learn, SVM, Pandas, NumPy

Development: Python, Flask, REST APIs, Jinja2

Tools: Jupyter Notebook, Matplotlib, Seaborn, Git

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Pimpri Chinchwad University, Pune | CGPA: 8.66

Bachelor of Computer Applications (BCA)

2021 – 2024

ICCS, Pune | CGPA: 9.2

CERTIFICATIONS

Machine Learning · Generative AI · Python Programming — Coursera

LANGUAGES

Hindi — Native · English — Fluent
