

TANISHA AGARWAL

Software QA Engineer | Python | SQL | Application & API Testing

agarwalt693@gmail.com | LinkedIn | GitHub | Pune, India | Portfolio

PROFILE

MCA graduate with hands-on experience in usability testing, bug identification, and quality reporting, backed by strong Python and SQL fundamentals. During a 7-month internship, tested features for usability gaps, tracked performance metrics, and documented defects before deployment. Applies the same quality mindset to personal projects — validating workflows, edge cases, and backend logic across multiple Flask applications. Looking to bring a detail-oriented, quality-first approach to a QA/testing role.

EXPERIENCE

Web Intern | Prop Innovations and Solutions, Pune

Aug 2025 – Mar 2026

- Performed usability testing and competitor analysis to identify UX gaps and quality issues ahead of release.
- Identified, reproduced, and documented bugs across feature releases, improving website quality before deployment.
- Tracked website performance metrics and translated findings into structured reports for product and quality decisions.

PROJECTS

TripTactix — Smart Travel Planning Platform — Python · Flask · Jinja2 · AI

- Tested booking and itinerary workflows across multiple user scenarios, validating backend logic and edge cases.
- Verified AI-recommendation outputs against expected behavior and flagged inconsistencies during development.

AgroConnect — Farmer-Buyer Marketplace — Python · Flask · MySQL

- Validated product listing, search, and order-management workflows across farmer and buyer user roles.
- Tested database schema and role-based access logic for data integrity and correct permission handling.

Student Performance Predictor — Python · Scikit-learn · SVM · Flask

- Validated model outputs by comparing results across multiple algorithms against expected behavior.
- Tested the Flask interface end-to-end to confirm accurate, consistent prediction delivery.

Resume Analyzer — Python · Flask · Generative AI

- Tested resume-parsing accuracy and feedback logic against varied resume formats and edge cases.

TECHNICAL SKILLS

Testing & QA: Usability Testing, Bug Identification & Documentation, Edge-Case Validation, Debugging

Technical: Python, SQL, MySQL, REST APIs, Flask

Tools: Git, Excel, VS Code

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Pimpri Chinchwad University, Pune | CGPA: 8.66

Bachelor of Computer Applications (BCA)

2021 – 2024

ICCS, Pune | CGPA: 9.2

CERTIFICATIONS

Python Programming · Machine Learning · Generative AI — Coursera

LANGUAGES

Hindi — Native · English — Fluent
